## Eel Soup Original Video

I'm not sure if I'd call this healthy. I would call it a cheap, healthy substitute. I think making your own chicken broth is a better option. Just like any other soup, you can vary the ingredients and add other veggies, like peas, carrots or turnips. I'm on the healthier side and have never had soup try to kill me, so I can't advise you on your specific fear, but I can say that some basic canning instructions are here: <http://jamierecooks.blogspot.com/2011/09/how-to-can-veggies.html>

Best of luck! Jamie This is so interesting. I've had all the canned condensed soups at my house for years, but had no idea that they added MSG to their formulas until about a year ago. I don't use "Chicken or Turkey" (or, really, any kind) in any soups or stews because of that, but I've never looked beyond the label on my canned soup. I'm going to have to look for a different one from now on, but it's definitely a new one for me. I like dried parsley, chopped up onion, and other herbs/spices/condiments at the beginning of recipes to season them as they cook, so I'll have to look into that. Oh boy, I love watching this recipe as I know the original version is very good, and this is the version I grew up with. People will always rave about how good the original is, and I can only agree. This recipe is based on adding crab meat to a crab ravioli dish, similar to Bocoletto, but more simple. If you have homemade crab ravioli at home, this would work really well! Bikaneri Beef... Biryani.. Of the seasonings that give flavour to the chicken biryani recipe is made... and ended recipe.... a.p. Soups used in making biryani are made with a batter of chickpeas and toor dal or for those who love.....

A big component of the dish is the soup, which i did make with leftover chicken bones, veggies, and soup from a can of rotisserie chicken. The chicken soup flavor is already subtle in this dish, so the shrimp is added at the last minute to enhance the flavor of the final product. So many cookbooks, so little time. I set out to make a nutritious, healthy soup for friends who were coming over for dinner. I thought of a few different recipes, but this one quickly bubbled up to the top - the shrimp in the soup really packs a punch. I love the complementary flavors; the heat and the creaminess of the soup. The steamed brown rice is a wonderful addition. You could make this soup with any type of gluten free pasta you'd like, too. I love the recipe for Spicy Purple Rice, which happens to be both gluten free and vegan. It's also very pretty, which always helps with presentation. I had this bizarre need to get ramen noodles. Years ago I was in Japan eating ramen in every place I went, but I could never find ramen noodles here. I finally found them once and thought, well, this tastes good, so it must be ramen. I bought some and made ramen on the cheap with whatever ingredients I had. I wanted to make it like the ramen noodles I loved, but I couldn't find them here either. I ended up with a solid, salty mixture that, when mixed into noodles, came out as a pretty decent-tasting soup.
